LETTER TO REGULATORS ON TREATABILITY STUDIES - WSB-136-94

Action: None

EG&G Rocky Flats Inc. received a copy of the letter (11595) sent to the regulators summarizing the sitewide treatability studies program. I am concerned that the dates in the letter do not match the dates in the work package or any dates EG&G has provided to the Department of Energy (DOE). It is not clear who is responsible for these dates or to whom they should be submitted.

Also the table in the letter did not include the Chemically Enhanced Steam Stripping Treatability Study (Phase I). The data on this study was presented to DOE and Environmental Protection Agency and Colorado Department of Public Health and Environment in the November 7, 1994 status meeting and the draft report was submitted to DOE on the same date.

I would like to discuss this with you at your earliest convenience.

WSBly
W. S. Busby
Manager, OU-2 Closure
Environmental Restoration Program Division
